MEMORY GEMS.

Wrong is wrong, no matter what you

Believing a thing is right does not make it right, even to the one so believ-

thing in good order, and Miss Della

faithfully at work. Her pupils seem to

be advancing very well. The discipline is good, and indications favorable. Mr. L. M. Mahaffey had seventy-five pupils present the day we visited his school at Bethany, in Martin Township, He is a real teacher, who is doing a work that will tell wonderfully in the elevation of that vicinity. The people around

Bethany are interested in educating their

Miss Minerva Drake had sixty-five with her. She is equal to the emergency, but sixty-five is too many for one teacher. Her work is thorough, and of a very high order. No risk is taken in committing children to her care. She gives them moral and intellectual training both in full measure. We do not remember when we have ever spent a morning more pleasantly.

Mr. R. B. A. Robinson is the master at Mt. Bethel. He has a good opportunity for work, and seems to be using the opportunity. We regret to see a community so full of children not have a school for the full school year. It is a great mistake to depend on summer schools for education. The citizens of Mt. Bethel vicinity are able to pay a good teacher by the year, and we hope to see a good school at this place for the next school year. It is impossible to estimate the benefit of a school to a community.

There will be no white Teachers' Institute in this County this year. We have enjoyed the greatest educational meeting ever held in the State, and without a single cent being taken from the public school fund. It was a great meeting, but cost nothing except the entertainment given by the good people in and around Anderson. Teachers and officers think it best not to have an Institute this year, because it would not be well attend-Association, which was such a great success. The colored Institute to be held will cost the County nothing.

The school at Generostee is now without a teacher. Mr. McElroy, who has done such a good, thorough and satisfactory work there, is going to North Carolina. We regret to give up Mr. McElroy. He will be missed, and Anderson County suffers loss in his departure. He is a real teacher, and a man that will be an acquisition to any community. We regret to see him leave, but we commend him and his good wife to the most favorable regard of all good people. He carries with him the good wishes of the School Commissioner, who has been so

We would urge the patrons of all the schools to put their school houses in good repair, so that the children and teachers will be comfortable. Also make your arrangements for teachers. Do not wait and just take anybody, but go to work and secure a good teacher just as any business man would secure a good clerk, salesman, book-keeper, &c. It is a most important business with parents to engage a teacher. Do not deal carelessly and loosely with the training and education of your children. Be exceedingly careful in reference to their training Trust not their future life to just anybody. Protect their training with jealous care. The community, the State, the Church, and God requires this of you.

A man is responsible for not knowing what he might have known. This will fix a dreadful responsibility on some of us. We will not be allowed to plead that we did not know better when we neglected the opportunity to gain such knowledge. When an opportunity once passes it is gone forever. Another may come just like the one past, but it will not be the same opportunity. The young do not fully appreciate this, but they might be taught to realize it nearer than they do. Parents fail to seize the passing privileges and opportunities to educate their children. In some instances they fail to supply their children with sufficient and proper books and papers. A newspaper is an educator. No family should be without one. Children will learn to read with very little help if provided with proper reading matter. That my who thinks it does not pay to buy books, (that is good books) and take papers, not too many, but enough. It would be a good Christmas gift or birth-day present to send a good paper to your own boy or girl for a year. Such a course would give handsome returns. Parents try it. Subscribe for a paper for your boy or girl, and you will be pleased with

Six Unlucky Sprees.

One poor man-he is now dead-I know, who was ruined half a dozen times by drink in a very curious and, I believe, unique manner. 'He was miserable enough about his sins, but his penitence never drove him to get drunk. Quite the contrary. Drink ruined him, and/yet he was drunk exactly six times during the whole of his life and no more. Most unfortunately these were the very days when he ought not to have got drunk, He had, I believe, a weak and excitable head. As a rule he drank very little. Now the first time that he got drunk was when he was made captain of his school and got a scholarship for the university. He drank champagne and it went to his legs and he met the head master. Result, loss of his place and scholarship. The next time he got drunk was the night before the final examination for his degree. It was of the highest importance to him that he should take a good degree : if he did himself justice he was sure of a good first and of a fellowship. Unluckily, he got drunk on the very evening when he should have gone sober and early to bed; the next day he was a wreck and failed altogether. In the end he took a third. After this he renounced scholarship and went into journalism. He did pretty well, writing articles and making a good income and being per-

drunk and lost his first. Then there came a moment when a certain editorial chair was vacant. He knew that he was and will not pull the plow another inch. mentioned for it. He got drunk and was seen by the proprietors in a condition of around us in desperation. We can hear hot coppers and imbecility. So he failed. He then got engaged to be married. Darlington Herald. - When a man thinks nobody cares for him, and he is alone in a cold, selfish world, he would do well to ask himself the question : "What have I done to make anybody care for and love me. and to warm the world with faith and generosity?" It is generally the case that those who complain the most have

- An exchange remarks that it is not much wonder that the human race finds it uphill work to be decent and keep straight. The first man was a liar and a sneak, the first woman kept bad company and pried into things that did not concern her; the first child born killed his brother. Our first parents were a tough lot and it is hard to get it out of - Governor Eagle, of Arkansas, is one

due to the encouragement and stimulus of a clever wife. Ever since her marrisge Mrs. Eagle has pushed her husband forward. She even educated him. Naturally, Arkansas is proud of Mrs. Eagle, and her position in the State is not unlike that of Mrs. Logan in Mis-- The Egyptians had a very remarkable ordinance to prevent persons from borrowing imprudently. An Egyptian

of the many men whose success in life is

was not permitted to borrow without giving to his creditor in pledge the body of his father. It was deemed both an impiety and an infamy not to redeem so sacred a pledge. A person who died without discharging that duty was deprived of the customary honors paid to the dead. - It has been claimed that the seeds

taken from ancient Egyptian tombs are capable of growth, but proof of the claim is lacking. It has been demonstrated however, that seeds of a very great age are capable of development. Raspberries have been raised from seed taken from the stomach of a man who died during the time of the Emperor Hadrian who reigned in the second century of our era. Think of it, a seed springing into new life after lying dormant sixteen cen-

mark of good breeding, and nowhere Some of the schools in this country have ing an extensive through not fatal adopted a course which teaches girls to enact the part of the hostess. One of the exercises requires the students to enter the room with ease and to be received by the hostess, who in turn presents them to the guest at her side. They are taught to walk, sit, stand, stoop, bow, to move with ease, precision, flexibowels with his hands, and immediately | bility and the grace that is the natural

result of physical training. - The heaviest modern ordnance is philosopher, in the forty-eighth year of the English 110-ton gun. Its charge is 960 pounds of best prismatic gunpowder, and the cylindrical steel shot weighs So goes the fruit of one long year's his tragedy of "Cato" has glorified the self- 1.800 pounds. At the last test this enortoil in a brief moment-but we have no muderer with the unfading splendor of mous shot penetrated entirely through compressed armor (steel faced iron) 20 inches thick; then through iron backing 5 inches thick; then it pierced wholly I called on a certain portrait painter through 20 feet of oak, 5 feet of granite

with the question: "Do I understand

norance?" "Well, yes," was the answer.

"you can put it that way if you want to."

"Well, all I have to say," said the bishop

has been referred to in illustrating some freak of profligacy. Less than a half dozen years ago a Louisville man took a genuine champagne bath in Rufer's hotel. But the likeness must have been strik- His name was-and is, for he is living-Crow, and he was a sporty man. A relative died near Lexington and left him a big lump of property. He bought enough champagne to fill a bath tup at Rufer's and plunged into it. On the side he had champagne to drink and a

dozen companions to drink it. Two

vears later he was on his uppers and
